KS4 Maths

www.hegartymaths.com and www.methodmaths.com subscription contributions

Dear parent/carer

We have been using www.hegartymaths.com and www.methodmaths.com for several years now and we have found them to be invaluable for students in years 10 and 11 in terms of exam preparation for GCSE.

Sadly, due to well-publicised budget cuts in education, our resources cannot stretch as far as they once did. As a result, we would like to ask for a small contribution from parents to help us fund this.

A Hegartymaths AND methodmaths contribution for one year would be £3 per student in KS4. Requests for this payment will appear in www.parentpay.com for all KS4 students.

I feel this is very good value for money. Using these websites means there is no real need for additional revision guides or booklets as everything is contained on the sites.

Thank you for your support with this. Please let me know if you have any questions

Yours faithfully

Ian Andrews

Leader of Learning – Maths

Further information about Hegartymaths and methodmaths

The ability to answer questions with a video tutorial in Hegartymaths is incredibly popular. On average, Imberhorne students spend over 11 hours on the site during a year on top of other maths homework. I have also had lots of positive feedback from students and especially parents about how useful the site is.

www.methodmaths.com has over 20 past maths GCSE papers contained. Each question is marked instantly and the paper is graded as students go. It is fantastic preparation for the GCSE exams and gives students instant feedback with regard to which grade they are achieving on the paper.
