Dear Parent/Carer

Re: Science Revision Guide

During Key Stage 3 Science, students study a range of topics covering the three main sciences. Each topic also incorporates investigative, research and presentation skills.

During most modules, all students are given a test that consists of some multiple-choice questions and short written answer questions, taken in class. In some modules, students might need to complete written tasks at home. These assessments allow both the department and your son/daughter to have an understanding of the level that they are currently working at for that module and gives them an opportunity to identify, and therefore, target any weaker areas. This should help all students to achieve their end of Key Stage 3 attainment level by the end of Year 9.

In preparation for the tests, we are offering you the opportunity to purchase a study guide to assist your son/daughter with their revision and homework. The guides are extremely user friendly and contain practice tests as well as subject specific notes. They can also be used to assist with other assessment and homework tasks. The study guide covers all three years at key stage 3.

Please be reassured that we will make sure the books are distributed in a COVID safe way. The guides are priced at **£6.50** and can be purchased via ParentPay. If you are unable to meet this cost please contact me by email. Once payment has been received your son/daughter will be given the revision guide by their teacher.

Yours sincerely

C Price
